

Archaeology Field Lead 2

position summary

The Archaeology Field Lead 2, under the supervision of the Field Services Manager and assigned Senior Principal Investigator(s), is responsible for the oversight and direction of all archaeological field investigations conducted by members of a field crew and implementing field procedures established by Merjent. The Archaeology Field Lead 2 is responsible for performing common tasks associated with leading archaeological investigations and surveys within the archaeological project area. This position will be based in Michigan, Illinois, Indiana, Ohio, Kentucky, and/or Tennessee. Travel is required.

responsibilities

- Performs pedestrian walkover survey, controlled surface survey, and hand excavation (shovel testing), oftentimes solo.
- Maintains all field records and paperwork.
- Directs archaeological site documentation and technical site mapping.
- During Phase I survey, determines types of appropriate survey coverage within the project area.
- Ensures accurate digital recordation of survey (Trimble R1 & iPad with ArcGIS & AGO).
- Responsible for the digital recordation and mapping of all archaeological sites using an established data dictionary.
- Responsible for daily download of GPS data.
- Ensures all field crew members accurately complete all project documents and reports.
- Responsible for the overall safety of the field crew and ensures adherence to all project safety protocols.
- Assists crew members in proper vehicle and equipment maintenance.
- Responsible for personal project accounts, including but not limited to, timesheets and expense reports.
- Reports to work on-time and prepared to start work in accordance with the survey crew schedule
- Adherence to all Merjent and client-directed safety policies and procedures including the use of all personal protective equipment (PPE).
- Authors reports, agency letters, Section 106 request forms, and other documents.
- Act in accordance with Merjent's company policies as outlined in the Field Employee Handbook.

required qualifications and experience

Education Requirements

- Graduate degree in archaeology, anthropology, or related science preferred. Preference is also given to candidates that meet the Secretary of the Interior's Standards for archaeology as well as those with field-based GIS/GPS experience. Bachelor's Degree in Archaeology, Anthropology, or a related science with several years of experience will be considered.
- Project-specific certifications and licensure may be required, if applicable.

Experience Requirements

- A graduate degree with a minimum of 2 to 3 years of experience in a similar leadership capacity conducting Phase I and Phase II fieldwork. An undergraduate degree with more than 3 years of experience and similar leadership capacity. This position will be based in Michigan, Illinois, Indiana, Ohio, Kentucky, and/or Tennessee.

Candidates interested in applying should submit a completed Application for Employment to merjent.applicantpro.com.
