

Engineering Technician III

Salary Range: \$97,500 - \$107,500

position summary

Merjent, Inc. (Merjent) is seeking a highly motivated Engineering Technician to join our team of professionals. The successful candidate will be working with senior engineers, project managers and other staff at Merjent to support preparation of plans/specifications, CAD drawings, and development of design documentation for projects and tasks as assigned for gas and electric transmission, wind, solar, and other energy facilities. The successful candidate will assist in producing a variety engineering tasks to help our clients' projects succeed by pro-actively navigating and effectively managing issues and challenges that arise.

Flexible/hybrid work arrangements are available, as Merjent promotes this for self-sufficient professionals who can work and/or learn successfully in a remote work environment. The anticipated salary for this position is between \$97,500 and \$107,500, depending on qualifications and experience.

responsibilities

The Engineering Technician will be responsible for the following:

- Use computer-aided design (CAD) software to create and modify technical drawings.
- Assist engineers in developing designs, reports, exhibits, and construction documentation.
- Quickly collect data and analyze results from multiple sources, sometimes with limited information.
- Collaborate with cross-functional teams to support separate services and innovation initiatives.
- Keep detailed records of test results, procedures, and other technical documentation.
- May require some limited field time as required.
- Perform other duties as assigned.

qualifications and experience

The successful candidate will have the following qualifications and experience:

- Associate's degree in engineering or a related field.
- 5-10 years of relevant experience.
- Previous experience or training with CAD software and GIS (AutoCAD Civil 3D, ArcMap).
- Strong working knowledge of Microsoft Office applications (Excel, Word, Outlook).
- Ability to read and interpret technical drawings and schematics.
- Strong interpersonal skills and ability to work in a team environment.
- Effective verbal and written communication skills with the ability to write descriptive and technically accurate specifications and reports.
- Strong problem-solving and analytical skills
- Must have a valid driver's license with a good driving record.

Candidates interested in applying should submit a completed Application for Employment to merjent.applicantpro.com.

Merjent, Inc is an Equal Opportunity Employer committed to diversity and inclusion. We are pleased to consider all qualified applicants for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age, disability, protected veteran status, or any other legally protected factors.
